By Online Filing**European Patent Application No 18712343.5
in the name of Gilead Sciences, Inc.**

We refer to the Communication pursuant to Rule 164(2)(b) and Article 94(3) EPC, dated 21 September 2021. Our response is set out below.

An amended description is filed herewith to replace the description presently on file.

The description is adapted to conform to the amended claims. The clauses on pages 119-130 have been deleted. The statements of incorporation by reference have been removed.

No new matter is added by the present amendments and the requirements of Art. 123(2) EPC are therefore met.

In view of the above, we submit that the application is now in order for grant. As a routine precaution, oral proceedings are hereby requested in accordance with Article 116(1) EPC in the event that the Examiner contemplates refusal of the present application. Should only minor matters remain outstanding, the Examiner is invited to telephone the undersigned with a view to resolving these.
