Re. European Application No.: 20726962.2 - 1109
In the name of Pfizer Inc.

Dear Sirs,

This letter is in response to the communication pursuant to Art.94(3) EPC dated 15 July 2024.

Please find attached new claims 1-19 which are to replace the previous claims on file.

In response to the objection in paragraph 2 of the communication, claim 14 has been amended to match the wording of claim 71 in the original application.

In response to the objection in paragraph 3 of the communication, claims 1, 5, 9 and 16 have been amended by deleting the option for the disease treated to be fatty liver.

Please also find attached new description pages 1-50 and 275. New pages 1-50 are to replace original pages 1-105. New page 275 is to replace original page 275. Original pages 106-274 are unamended.

Amendments have been made as requested in paragraph 4 of the communication. Please also find attached a version of the description, for information only, in which all of the amendments made have been tracked.

All objections having been dealt with, the applicant looks forward to receiving a communication pursuant to r.71(3) EPC in due course. As a precaution, the applicant requests the appointment of oral proceedings before any decision to refuse the application is taken.

Yours faithfully

Andrew John RUDGE
European & Chartered Patent Attorney
(Association Pfizer – No. 462)
