Dear European Patent Office

Re. European patent application no. 18755728.5
Nodthera Limited
Our ref: NODT-003/N01EP 330150-2050

We refer to the examination report dated 13 July 2022, and to the above-identified application.

The claims as presently on file are maintained.

We lodge herewith an amended description to be substituted for the description as presently on file. For the convenience of the Examiner, a further copy of the amended description showing the amendments in track-changes format is also enclosed.

The description has been amended so as to delete references to the term “prodrug” throughout.

It is noted that the term “prodrug” does not appear in the claims as presently on file. It is therefore submitted that the objection in item 2 of the examination report concerning “*the term “or a [prodrug] thereof” throughout the **claims**.....*” [emphasis added] is moot.

It is submitted that, by the deletion of the term “prodrug” throughout the description, the remaining objections in the examination report have been overcome.

In light of the above, it is submitted that this application complies with the provisions of the EPC and the Implementing Regulations, and is in order for grant.

Purely as a precaution, should the Examiner be minded to refuse this application, oral proceedings are requested under Article 116 EPC before any such decision is taken.

Yours faithfully

CLAUGHTON, Hannah Jane
